GREAT Program

TEXAS A&M
UNIVERSITY

Graduate Recruitment, Enhancement, And Travel (GREAT) Program

The GREAT Program provides supplemental funding for Texas A&M doctoral students with multi-year national fellowships and federal training grant fellowships to create financial packages competitive with the nation's top universities.

Supplements combined with fellowship funding would provide, for up to five years, total packages consisting of:

- | \$3,000 monthly stipend
- | Full tuition and required university and college fees
- | Student health insurance
- | Annual \$1,500 scholarship for professional development
- | Participation in research leadership and mentoring development programs

#6 in the nation

for the number of doctoral degrees earned

#5 in Life Sciences

#11 in Education

#4 in Engineering

#12 in Physical & Earth Sciences

-NSF Survey of Earned Doctorates, 2020

Find a list of eligible fellowships and more details about the GREAT program at grad.tamu.edu/GREAT

Provides supplemental funding to eligible:

- nationally competitive external fellowships awarded to students,
- federal training grant fellowships awarded to faculty or departments, and
- federal research grant supplements awarded to faculty to promote diversity.

Program Quick Facts

Dual Degree Option?
No

Thesis or Dissertation Required?
No

Main Method of Study
Face-to-Face

The Department of Information and Operations Management in Mays Business School offers a non-thesis program leading to a Master of Science degree in Management Information Systems (MS-MIS). This full-time program produces graduates who are both business analysts (i.e., professionals who understand accounting, marketing, finance, etc.) and information system specialists (i.e., professionals who can implement information systems strategies). Graduates of the program possess the business, technical, and leadership skills to meet the challenges presented by rapidly evolving information technology and the need to effectively incorporate this technology into business strategy and day-to-day operations.

The MS-MIS degree program is delivered during four semesters (21 months) and includes a core curriculum of eight courses, in addition to four elective courses, which may include an optional summer internship. Graduates of the program are qualified to pursue a variety of careers in IT, such as business, systems, or network analyst, database administrator, software developer, risk assurance specialist, systems developer, web developer, etc.

For additional information on the MS-MIS degree in Mays Business School, please visit <https://mays.tamu.edu/ms-management/information-systems/>, email INFOStudentServices@mays.tamu.edu, or call (979) 845-0811.
