

Graduate Council Meeting Agenda

Thursday 03 December 2020

1. Special Discussion Items

- a. Follow-up on UCC discussion of syllabus grading policy – **discussion on the following information from UCC:**

*The committee concluded that as long as the syllabus includes 1) a list of graded item, 2) the weight of each graded items, 3) major assignments listed on the schedule, and 4) due dates are listed on the schedule, then that is enough for UCC. They argue that the format or the type of the assignments/projects are not always the same, so a detailed explanation of the graded item is not necessary. We have been asking faculty members to include a short description of their graded assignment in the syllabus, and there were no major issues. I think as a school, we can ask the instructors to include short descriptions of each assignment, or should we follow UCC's suggestion? **GC decides to continue evaluating syllabi for descriptions for now.***

- b. New 689 (Special Topics) Submission Process

New online workflow for submitting special topic course requests effective December 7, 2020.

- c. January Meeting/E-vote

January meeting changed to e-vote. Details to follow.
